

Conference on Multi-messenger Astronomy in the Era of LIGO-India

JANUARY 15-18, 2019

Conference will feature talks by some of the world's leading experts on gravitational wave detectors and what new physics and astrophysics they may unravel in the era of LIGO-India, sometimes in conjunction with other electromagnetic and particle observations.

An added attraction will be the opportunity to meet with and inspire the growing, multi-institutional LIGO-India team of scientists and engineers at the meeting.

VENUE:

The Duke's Retreat, Khandala, MH
(A scenic resort near Pune)

ORGANISERS:

Sukanta Bose | Ajit Kembhavi
Sanjit Mitra | Tarun Souradeep

PARTICIPATION BY INVITATION ONLY
